Enrichable & Expandable Skills

Since the early 1950’s researchers have been researching the teaching of Creative Thinking Skills. One of the leading researchers, E. Paul Torrance, Ph.D., professor emeritus of the University of Georgia, developed a series of tests of creative thinking skills that are used around the world. His tests measure several separate skills that can be developed. Twenty of them that can be developed and applied in any job are listed below.

1. Fluency - many ideas
2. Flexibility - different types of ideas
3. Elaboration - addition of details
4. Originality - uniqueness
5. Abstractness of approach moving from reality
6. Openness-resisting early closure or completion
7. Change of Context (cross-interpretation)
8. Combination of Ideas/Facts (Synthesis)
9. Breakthrough from Current Limits
10. Unusual Viewpoint
11. Internal Perspective
12. Humorous Perspective
13. Richness & Colorful Detail
14. Feelings & Emotions
15. Fantasy
16. Movement & Sound (Sense change)
17. Multiple Idea Combinations
18. Macro Scale Perspective [seeing from larger view]
19. Provocative Viewpoint
20. Future orientation

Unconventional Thinking  
can lead us to Success

At BB&T we will create competitive advantage by knowing more than our competition and by adding value through our ability to solve problems creatively.
John A. Allison

If you think you are going to be successful running your business in the next ten years the way you did in the last ten years, you’re out of your mind. To succeed, you have to disturb the present.
Roberto Goizueta, CEO-Coca-Cola

Swim upstream. Go the other way. Ignore the conventional wisdom. If everyone else is doing it one way, there’s a good chance you can find your niche by going in exactly the opposite direction.
Sam Walton, founder of Wal-Mart Stores

To stimulate creativity, one must develop the childlike inclination for play and the childlike desire for recognition.
Albert Einstein

Being creative is being yourself and helping others to do the same.
Robert Alan Black, Ph.D., CSP

The creative is the place where no one else has ever been. You have to leave the city of your comfort and go into the wilderness of your intuition.
Alan Alda

Creative thinking may simply mean the realization that there’s no particular virtue in doing things the way they have always been done.
Roger Von Oech

A hunch is creativity trying to tell you something.
Frank Capra

Creative thinking and creativity are what produce success in all businesses.
Harry Vardis

Creative ideas cannot be pressed out like olive oil but must be massaged out through enablement, motivation & reinforcement.
Steve Gandola

It’s not what you see that determines what you believe; it’s what you believe that determines what you see.
Fredrick K. C. Price

No matter how old you get, if you can keep the desire to be creative, you’re keeping the man-child alive.
Pablo Picasso

Creativity thrives in the child, dies in the man.

M.I.N.D. Design™ Creative Styles

There are many different Creative Thinking Styles. The following paragraphs describe four basic Creative Thinking Styles.

**M - Rationally Innovative**
Rational & Challenging

Continuously improving, refining what exists or systematically moving from the abstract to the concrete. Uses logic and rationale. This is a deductive and reductive approach moving back and forth from the practical to the theoretical. A style of a loner. The style of a highly goal-oriented person who is most concerned with completing the challenge.

**Dd - Systematic**
Conventional

Applying known theories and systems or equations to reuse previously proven solutions or problems. This is a reductive approach using predominantly critique, judgement and argument. The style of a person highly loyal to an organization. Very organized and a step-by-step thinker.

**Imaginative - i**
Off-the-Wall

Creation of the new, the untried. Blue sky, inspirational thinking & leading. Uses hunches, guesses, approximations. This is an exploratory, open-ended seemingly undisciplined approach that works from many potential solutions backwards more often then from the problem towards solutions, using multiple thinking and non-thinking approaches. The style of a highly impatient person, loyal to the challenges and the process.

**Joint Team - n**
Communal & Harmonious

An exploratory, often accidental approach. Generally “feels” a problem and its many potential solutions. Generally this style prefers to work in teams to “bounce” ideas often off other “accepting” people/leaders. A compromising style. The style of a person highly loyal to his or her team and the project or organization.
